

CM AT RISK ADVERTISEMENT

The Gateway University Research Park is accepting proposals for A Construction Manager at Risk for The Joint School of Nanoscience and Nanoengineering until 5:00 PM, April 30th, 2009, at the North Campus of the Gateway University Research Park (5900 Summit Avenue, Browns Summit, NC 27214). This project will consist of construction of a laboratory building that will house the Joint School of Nanoscience and Nanoengineering which will be located at the South Campus of Gateway University Research Park. The estimated construction cost for this project will be approximately \$40,000,000. The facility will be a complex laboratory building which will include classrooms, laboratories, clean rooms, high purity water systems; complex energy, HVAC, and support systems which will facilitate the research and study of Nanoscience and Nanoengineering.

Qualifications Questionnaire, Instructions to Proposers and other project information are available from:

Chuck Dixon, Project Manager
Gateway University Research Park
5900 Summit Avenue
Browns Summit, NC 27214
